

## Welcome to our new Catalog!

The first two pages are notes for ease of use, and to explain some information about this year's new Pewter Wholesale catalog.

### Long-Time Customers of MDPewter and former customers of Metal Rock:

Many designs that you may be used to ordering are probably missing from this version of our catalog; we have trimmed our catalog down to the designs that cast the best and are most desired by our clients. Some have been removed temporarily, while we fix molds and resculpt new Masters. **While we are discontinuing most designs that are not pictured, we have retained the vast majority of their molds and are willing to continue casting them for clients who have already ordered them** in the past.

Suncatcher Designs are not currently pictured, but are still available to our clients ordering them. We WILL be making new production molds for most suncatcher designs.

Please feel free to contact us with any inquiries; in most cases, however, **please be aware that most of those designs will not have new molds made, and will be permanently discontinued when the mold we have wears out.**

Our company goal is to replace old (non historical) designs with our own original, in-house artwork!

We felt that this would be the best way to transition our company in the direction we want to go, while allowing customers time to adjust to the change in our stocks and our new direction.

Please feel free to email us at any time with requests or ideas for designs you'd love to see available in our catalog! While we are not currently offering custom exclusive designs, Onion is actively sculpting new Masters to turn into pewter product for our public wholesale catalog. She can't promise to sculpt every art prompt recieved, but they will all be taken into consideration as we create!

---

• **Square Grid backgrounds behind an item: the squares are 1cm x 1cm**  
*(These are what our finalized photos will look like! We are so excited to replace the outdated photos and provide an easy scale reference.)*

• **Photographed designs may differ slightly from final product;** if you have a preference for Bail Loops or Flat Loops, please let us know in your orders.  
*We will otherwise prioritize whichever version casts the best, if there is more than one mold for the item.*

• **Colored items -- gem-set, marble-set, epoxied -- are Artist's Choice unless specified with each order.**

*We will usually default to an assortment of colors in gemsetting and marbles. For marble designs, we will cast whichever marbles fit best in the mold, as the glass has a bit of size variance.*

**-= All of our hand-made product is made to order. =-**

• **Please allow us 7-14 days of production time; add 3 days for orders containing gemset or epoxy colored items.**

*We would rather over-estimate the timeframe for your order to allow us time to re-cast designs that did not polish well, and to tend to any other possible troubleshooting during production, than rush ourselves and send you lesser quality product.*

*We want to send you the best pewter designs our workshop can produce!*

**We are a two-person, small family business; rush orders are available only at our ability to physically fulfil them in a safe manner.** Please contact us if you have a specific deadline you need your order by, and we will be able to provide an estimate on if we can make that happen or not.
